

# Troubleshooting Your Advanced Degree

If your chin remains in handheld mode,  
cartilage may have been destroyed.

Return uncatalogued accretions  
to the general circulation desk  
for purging; refer your debts,  
outstanding or common,  
to Special Collections.

As with cracked spines,  
worn discs, and related  
problems of archived materials,  
discharge any built-up dynamic  
by laying your hands on a colleague.
